

Shielded Electrodes

For Pipe Burners: SCH-80:

Part Number 089065 1-1/4" & 1-1/2"
 Part Number 089066 2"

For Extruded Band and Cast Iron Burners:

Part Number 089064

Conversions to Shielded Electrodes:

Burner plate bushings are offered in many sizes to easily upgrade older style electrodes to Flynn's new shielded electrode

Part Number 301120	1"
Part Number 303050	1-1/8"
Part Number 301119	1-5/16"
Part Number 301088	1-15/16"

see Burner Plate sheet

Bushing is easily installed in the existing burner plate.

Part Number 096550	1-1/2"
Part Number 096499	2"

Shielded Electrodes

Electrode Assembly

Burner Plate Bushings

Offered in many sizes to easily upgrade older style electrodes to Flynn's new shielded electrode

Ignitor Tube Bracket

Designed for pipe & extruded burners to hold ignitor tube assembly in place.

Part Number 085261

Ignitor Tube Assembly

Designed to automatically gap the electrode rod for optimum ignition and automatically position the electrode for optimum flame sensing.

Part Number 300937
