

# Peel-Off Degreaser

## DESCRIPCIÓN DEL PRODUCTO:

Peel-Off Degreaser es una formulación innovadora y segura de solventes y es extremadamente eficaz en alquitrán, asfalto y hormigón. Peel-Off Degreaser se ha convertido en el reemplazo sensible para limpiadores / desengrasantes clorados. Peel-Off Degreaser ofrece las mejores características de los disolventes clorados sin las barreras ambientales. Con un valor Kauri-butanol de 125, el Desengrasante Peel-Off demuestra una mayor solvencia que algunos solventes clorados y mucho más alto que los HCFC o los minerales. Combinado con los beneficios de la evaporación completa, tiempo de secado rápido, sin punto de inflamación, y baja toxicidad, Peel-Off Degreaser puede convertirse en la respuesta para el personal de mantenimiento y mecánicos.

## APLICACIONES:

JAX Peel-Off desengrasante efectivamente elimina la mayoría de los aceites, grasas (excepto fluorados), moly, grafito y siliconas. Además, proporciona la compatibilidad del usuario con más metales, plásticos, anillos y materiales de sellado que la mayoría de los otros disolventes. Al igual que con cualquier limpiador a base de disolvente, se recomienda que, antes de usarlo, pruebe Peel-Off Degreaser en una pequeña sección de material.

### Metales compatibles:

Aluminio Berilio 3004H14  
 Bronce  
 Cromo  
 Cobre  
 Plomo  
 Níquel  
 1010 Acero laminado en frío  
 3042B Acero inoxidable  
 estaño

### Plásticos compatibles:

HDPE  
 Nylon  
 Mylar®  
 Ryton®  
 Polipropileno

### Elastómeros compatibles:

Butyl  
 Viton® A, B  
 Perfluoroelastómero  
 Poliéter Uretano  
 Vinyl-Metil Siloxano

Plásticos incompatibles: ABS, acrílico, Lexan®, poliestireno

Elastómeros Incompatibles: Buna-N, Neopreno, Polisiloxano, Poliuretano

## FICHA TECNICA:

Propulsor:	Dióxido de carbono
Punto de inflamación:	No hay extensión de la llama
Spray Patrón:	Corriente
Textura:	Mojado, pero un disolvente de flash
Apariencia:	Rápido Color transparente, naranja Olor
Consistencia:	Ligero
Gravedad específica:	1,30-1,34 para Concentrado, típico

## AEROSOL PACKAGING:

20 oz. net weight aerosol cans (12/case) – Part # JAX211

## BULK PACKAGING:

Trigger spray bottles (16 fl. oz., 12/case) – Part # 00211, Gallons (4/Case) – Part # 02111-004, 5-Gal Pails – Part # 0211-005; 55-Gal Drums – Part # 0211-055

RE: JAX Peel-Off Degreaser (Aerosol)  
Category Code: K1  
NSF Registration No. 139030

Dear Ms. Patty Riek:

NSF has processed the application for Registration of **JAX Peel-Off Degreaser (Aerosol)** to the NSF Registration Guidelines for Proprietary Substances and Nonfood Compounds (2004), which are available at <http://www.nsf.org>. The NSF Nonfood Compounds Registration Program is a continuation of the USDA product approval and listing program, which is based on meeting regulatory requirements including FDA 21 CFR for appropriate use, ingredient and labeling.

**This product is acceptable for use as a cleaner and degreaser for use in non food processing areas (K1), which are used to remove oil, wax, resinous materials, or other substances not removable by using acidic or alkaline cleaning agents. Their use is limited to nonprocessing areas where there is no possibility of solvent vapors entering a processing area. Food processing equipment or utensils treated with such preparations must be washed with an acceptable detergent solution and thoroughly rinsed with potable water before returning to a processing area.**

NSF Registration of this product is current when the NSF Registration Number, Category Code, and Registration Mark appear on the NSF-approved product label, and the registered product name is included in the current NSF White Book Listing of Nonfood Compounds at the NSF website (<http://www.nsf.org>). The NSF Registration Mark can be downloaded from the NSF website, at [http://www.nsf.org/business/about\\_NSF/nsf\\_marks\\_download.asp](http://www.nsf.org/business/about_NSF/nsf_marks_download.asp).

NSF Listing of all registered Nonfood compounds by NSF International is not an endorsement of those compounds, or of any performance or efficacy claims made by the manufacturer.

Registration status may be verified at any time via the NSF web site, at <http://www.nsf.org>. Changes in formulation or label, without the prior written consent of NSF, will void registration, and will supersede the on-line listing.

Sincerely,

Jennifer De France  
NSF Nonfood Compounds Registration Program
